Malgré son apparente légèreté, le WB07 2en1 Vented Evo intègre tous les standards de protection Furygan. Si le WB07 est imbattable pour ce qui est de la ventilation, sa doublure étanche amovible saura néanmoins vous garder au sec si le temps se gâte.

Despite its apparent lightweight, the WB07 2in1 Vented Evo features all the Furygan protection standards you'd expect. While the WB07 is unbeatable when it comes to ventilation, its removable waterproof lining will keep you dry even if the weather turns bad.
